

Projects Investment Committee (PIC)

Investments are expenditures that have longer term impact in terms of both benefits accruing and Profit and Loss impact to the bank. The Committee will be the approving authority for all Investments of the Bank and operate with the following objectives:

1. To consider cost and benefits of the investments, deliberate pros, and cons of the proposal, discuss longer-term implications and provide approvals.
2. Assess competing priorities and guide on prioritization of Investments.
3. To ensure alignment of proposed Investments to the strategic direction of the bank.
